Increase in Child Burns

STAYING HOME

.....

CAUSING AN INCREASE IN BURNS

The Firefighters Burn Institute Regional Burn Center at UC Davis Medical Center has seen a drastic increase in the amount of patients since the state's stay-at-home order took effect. During this time, Shriners Hospital for Children - Northern California has also seen an increase in patients with burns related to at home injuries.

**Causes of burns at Shriners Hospital for Children - Northern CA
March 10 - April 15**

46%

Hot Food
and
Drink

30%

Household
Appliances and
Other Heat
Sources

24%

Hot Tap
Water and
Other Fluids

Average age of burn patient is 2 years old

Statistics provided by Shriners Hospital in a report done on April 16, 2020.

- Keep hot liquids away from a child's reach.

- Keep a 3-foot child-free zone away from the oven.

- Turn pot and pan handles away from stove top edges. Do not put anything flammable close to a heat source.

- Be careful when microwaving food. Food will be extremely hot and steam can burn as bad as fire.

- Wait a few minutes before removing hot liquids from a microwave.

- Do not cook when your thought process is impaired.

Burn Treatment

- 1) Remove yourself from the source of the burn.
- 2) Rinse the injured area with room temperature, clean, water for 15 to 20 minutes.
- 3) Cover it with clean gauze or a wrap.

Home Fire Safety Week

- Split into 5 different major categories of the home where dangers are present (5 day spirit week).
- Each day had a major topic with each topic having sub categories to post on.
- Messages shared on Facebook and Twitter with info graphics and text posts.

5 Categories

Today is the first day of our Home Fire Safety Spirit Week!

We will be posting safety tips throughout the day.

Today's topic is:
KITCHEN SAFETY

WE WILL BE DISCUSSING

- COOKING SAFETY
- CHILD FREE ZONES
- KITCHEN FIRES

Welcome to the second day of our Home Fire Safety Spirit Week!

Today's topic is:
Living Room Safety

WE WILL BE DISCUSSING

- HEATING SAFETY
- ELECTRICAL SAFETY
- SMOKE AND CARBON MONOXIDE ALARMS

Welcome to the third day of our Home Fire Safety Spirit Week!

Today's topic is:
Bathroom Safety

WE WILL BE DISCUSSING

- APPLIANCE SAFETY
- SCALD PREVENTION

Welcome to the fourth day of our Home Fire Safety Spirit Week!

Today's topic is:
Backyard Safety

WE WILL BE DISCUSSING

- GRILLING SAFETY
- ELECTRICAL SAFETY
- FIRE PIT SAFETY

Welcome to the last day of our Home Fire Safety Spirit Week!

Today's topic is:
Emergency Planning

WE WILL BE DISCUSSING

- HOME ESCAPE PLANS
- EVACUATION PLANS
- CALLING 9-1-1

Evacuation Plan

- Develop a family communication plan
- Assemble a “go bag”
- Know at least two ways out of your community
- Have at least a half tank of gas in your car at all times
- Have an emergency kit in your car
- Have a plan for your pets

Grilling Safety

- Should only be used outdoors
- Keep children and pets 3 feet away from the grill at all times
- Never leave grill unattended when cooking
- Always open a gas grill lid before lighting it
- Keep your grill clean
- Should be kept away from anything that is combustible
- Never use lighter fluid on hot coals
- Do not lean over the grill when igniting or cooking

Scald Prevention

- Set water heater temperature to no higher than 120 degrees
- Check bathwater temperature, water should be warm not hot
- Place your child facing away from the water faucet
- Never leave your child unattended

Thank you!
